

EVERtect™

High-performance concrete

AMRIZE

**Precision-engineered, high-performance
concrete for the most demanding jobs**

EVERtect™

RAISING THE STANDARD FOR THE BUILDING INDUSTRY

Backed by more than a century of expertise, Amrize's EVERtect offers a full line of customizable, high-performance concrete. Engineered for the most demanding performance requirements, EVERtect meets the growing needs of builders and engineers serving commercial, infrastructure and residential projects across North America.

EVERtect raises the standard of building by delivering greater speed, efficiency and flexibility in one system.

Perot Museum, Dallas, USA

Each product addresses a unique building need, and can be customized further, to fit the specific project requirements.

ECOtect™
Eco concrete

SUPERtect™
High-strength concrete

FLUIDtect™
Self-consolidating concrete

RAPIDtect™
High early-strength concrete

MAXtect™
Ultimate-performance concrete

IMAGItect™
Decorative concrete

CONDUtect™
Heat-conductive concrete

TEMPtect™
All-season concrete

Formerly

ECO Pact
The Green Concrete

DYNAMax
The Ultimate Performance Concrete

Agileflow

ECOtect inside

ECOtect™

Eco concrete

ECOtect is a low-carbon concrete delivering 100% performance with at least 30% lower carbon footprint, compared to standard (Type 1/GU) concrete.

M3 Tower, Mississauga, Canada
SUPERtect inside

SUPERtect™

High-strength concrete

SUPERtect is a dynamic, high-performance concrete mix with high strength (8,000-14,500 psi, 55-99 MPa), superior durability and rigidity (min. 5,800 ksi, 40 GPa), making it ideal for demanding structural applications.

RAPIDtect™

High early-strength concrete

RAPIDtect is our high-early-strength concrete that is designed to reach specified strength sooner, delivering rapid performance gains that improve on-site productivity and help you stay on schedule.

MAXtect inside

MAXtect™

Ultimate-performance concrete

MAXtect combines the revolutionary technologies of an ultra-high-performance cementitious matrix and high-strength fibers, providing maximum performance in mechanical properties, durability, and aesthetics.

IMAGitect™

Decorative concrete

IMAGitect is superior-performance decorative concrete that supports the boldest architectural projects for homeowners, architects, and landscapers. Highly durable and low-maintenance, it's available in a range of vibrant colors, patterns, and textures.
