

SAFETY DATA SHEET

1. Identification

Product identifier	Soil			
Other means of identification	None.			
Recommended use	Construction.			
Recommended restrictions	Uses other than the recommended use.			
Manufacturer/Importer/Supplier	er/Distributor information			
Company name	Amrize Inc.			
Address	6509 Airport Road			
	Mississauga, Ontario L4V 157			
Telephone	Eastern Canada: (905) 738-7070			
	Western Canada: (403) 225-5400			
Website	www.amrize.com			
E-mail	sdsinfo@amrize.com			
Emergency telephone number	CHEMTREC within USA and Canada: 1-800-424-9300			
	CHEMTREC outside USA and Canada: +1 703-527-3887 (collect calls accepted)			
2. Hazard identification				
Physical hazards	Not classified.			
Health hazards	Carcinogenicity (inhalation) Category 1A			
Label elements				
Signal word	Danger			
Hazard statement	May cause cancer by inhalation.			
Precautionary statement				
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.			
Response	IF exposed or concerned: Get medical advice/attention.			
Storage	Store locked up.			
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.			
Supplemental information	None.			
Other hazards	None known.			
3 Composition/informatio	on on ingredients			

3. Composition/information on ingredients

Mixtures

Chemical name	Comm	non name and synonyms	CAS number	%
Quartz			14808-60-7	0.1 - 1
Composition commen	confidentia	All concentrations are in percent by weight. Any concentration shown as a range is to protect confidentiality or is due to batch variation. Components not listed are either non-hazardous or are below reportable limits.		
4. First-aid measu	res			
Inhalation	Move to fre or persist.	esh air. If not breathing, give a	artificial respiration. Call a physician	if symptoms develop
Skin contact	Wash off w	<i>i</i> ith soap and water. Get medi	cal attention if irritation develops an	d persists.
Soil				SDS Canada
971830	Version #: 01	Revision date: -	Issue date: 07-May-2025	1/7

Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
5. Fire-fighting measures	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed. Combustion products may include: Carbon oxides. Silicon oxides.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Use water spray to cool unopened containers.

Specific methodsUse standard firefighting procedures and consider the hazards of other involved materials.General fire hazardsNo unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Following product recovery, flush area with water. Put material in suitable, covered, labelled containers. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep formation of airborne dusts to a minimum. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Avoid prolonged exposure. Should be handled in closed systems, if possible. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in tightly closed container. Store away from incompatible materials (see section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

US. ACGIH Threshold Limit Valu Components	es (TLV) Type	Value	Form
	Туре	value	1 Onn
Quartz (CAS 14808-60-7)	TWA	0.025 mg/m3	Respirable fraction.

, ,	s (Occupational Health and Safety Regu Type	· ·	
Quartz (CAS 14808-60-7)	8 hour	0.05 mg/m3	Respirable fraction.
Biological limit values	No biological exposure limits noted for the	·	·
Exposure guidelines	Occupational exposure to nuisance dust should be monitored and controlled.	0 ()	spirable crystalline silica
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.		
ndividual protection measures, Eye/face protection	such as personal protective equipment If contact is likely, safety glasses with side	e shields are recommended	
Skin protection Hand protection	Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.		
Other	Use of an impervious apron is recommen	ded.	
Respiratory protection	Wear positive pressure self-contained breathing apparatus (SCBA). Selection and use of respiratory protective equipment should be in accordance with CSA Standard Z94.4.		
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.		
General hygiene considerations	Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		
9. Physical and chemical j	properties		
Physical state	solid.		
Form	Powder.		
Colour	Brown to black.		
Odour	Odourless.		
Odour threshold	Not applicable.		
Melting point/freezing point	Property has not been measured.		
Boiling point or initial boiling point and boiling range	Property has not been measured.		
Flammability	The product is non-combustible.		
Upper/lower flammability or exp	losive limits		
Explosive limit - lower (%)	Not applicable, material is a solid.		
Explosive limit – upper (%)	Not applicable, material is a solid.		
Flash point	Not applicable, material is a solid.		
Soil			SDS Car

Auto-ignition temperature	Not applicable, material is a solid.
Decomposition temperature	Property has not been measured.
рН	Property has not been measured.
pH concentration	Property has not been measured.
Kinematic viscosity	Not applicable, material is a solid.
Solubility	
Solubility (water)	Property has not been measured.
Partition coefficient (n-octanol/water) (log value)	Property has not been measured.
Vapour pressure	Property has not been measured.
Vapour pressure temp.	Property has not been measured.
Density and/or relative density	
Density	Property has not been measured.
Relative density	Property has not been measured.
Relative density temperature	Property has not been measured.
Vapour density	Not applicable, material is a solid.
Particle characteristics	Property has not been measured.
Other information	
Evaporation rate	Not applicable, material is a solid.
Explosive properties	Not explosive.
Oxidising properties	Not oxidising.
Viscosity	Property has not been measured.
10. Stability and reactivity	у
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transpo
Chamical stability	Material is stable under normal conditions

	, 5 1
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials. Avoid generation of dust.
Incompatible materials	Strong oxidising agents.
Hazardous decomposition products	No hazardous decomposition products are known. In the event of fire: See Section 5.

11. Toxicological information

Information on likely routes of exposure

information on likely routes of	exposure			
Inhalation	Prolonged inhalation may be	harmful.		
Skin contact	Prolonged skin contact may	cause temporary irritation.		
Eye contact	Direct contact with eyes may cause temporary irritation. May cause discomfort if swallowed.			
Ingestion				
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.			
Information on toxicological ef	fects			
Acute toxicity	Not expected to be acutely to	oxic.		
Components	Species	Test Results		
Quartz (CAS 14808-60-7)				
Chronic				
Inhalation				
LOEC	Human	0.0563 mg/m3		

Skin corrosion/irritation

Soil 971830 Prolonged skin contact may cause temporary irritation.

Serious eye damage/eye irritation	Direct contact with eyes may	cause tempora	ary irritation.		
Respiratory or skin sensitisation	n				
Respiratory sensitisation	Not a respiratory sensitiser.				
Skin sensitisation	This product is not expected to cause skin sensitisation.				
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.				
Carcinogenicity	In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that "carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs." (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.) In June 2003, SCOEL (the EU Scientific Committee on Occupational Exposure Limits) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis (and, apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk" (SCOEL SUM Doc 94-final, June 2003) According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits. May cause cancer by inhalation. Occupational exposure to respirable crystalline silica should be monitored and controlled.				
ACGIH Carcinogens

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

TDG

Not regulated as dangerous goods.

ΙΑΤΑ

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and

the IBC Code

15. Regulatory information

Canadian regulations

This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.

Controlled Drugs and Substances Act

Not regulated. Export Control List (CEPA 1999, Schedule 3)

Not listed.

Greenhouse Gases

Not listed.

Precursor Control Regulations

Not regulated.

International regulations

Stockholm Convention

Not applicable.

Rotterdam Convention

Not applicable.

Kyoto Protocol

Not applicable.

Montreal Protocol

Not applicable.

Basel Convention

Not applicable.

International Inventories

Country(s) or region	Inventory name	On inventory (yes/no)*
Australia	Australian Inventory of Industrial Chemicals (AICIS)	Yes
Canada	Domestic Substances List (DSL)	Yes
Canada	Non-Domestic Substances List (NDSL)	No
China	Inventory of Existing Chemical Substances in China (IECSC)	Yes
Japan	Inventory of Existing and New Chemical Substances (ENCS)	Yes
Korea	Existing Chemicals List (ECL)	Yes
New Zealand	New Zealand Inventory	Yes
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)	Yes
Taiwan	Taiwan Chemical Substance Inventory (TCSI)	Yes
United States & Puerto Rico	Toxic Substances Control Act (TSCA) Inventory	Yes

*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s) A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
